

Would you know what to do?

→ 1 day courses specifically designed to help dental professionals manage medical emergencies in the workplace

FOR REGISTERED DENTAL CARE PROFESSIONALS - CPD 6 HOURS

You never know when you may need these skills... Don't leave it too late!

This course has been specifically developed to meet the needs of dental professionals and to comply with guidance from the CQC, Resuscitation Council and the GDC.

The 1 day Dental Medical Emergency first aid course is required by employers, where their risk assessment has shown a need for appointed persons for the purposes of the Health and Safety (First Aid) regulations. There is also additional guidance for example from the Care Quality Commission and UK Resuscitation Council.

At the end of the course, the candidate will be awarded an EFA first aid certificate – HSE approved to comply with the CQC recommendations and will also be awarded a certificate in management of medical emergencies within the dental workplace.

RCMS are a group of Clinical NHS Professionals who practise what they teach. They have a wealth of experience in all aspects of resuscitation and emergency care provision and have been providing training within dental practice settings for over 20 years.

Course Outline

Much of this course will be delivered in small facilitated groups and will be practical in nature, focussed around clinical scenarios.

- Course introduction & the purposes of first aid, CQC & Resuscitation council guidance
