 Metrodent

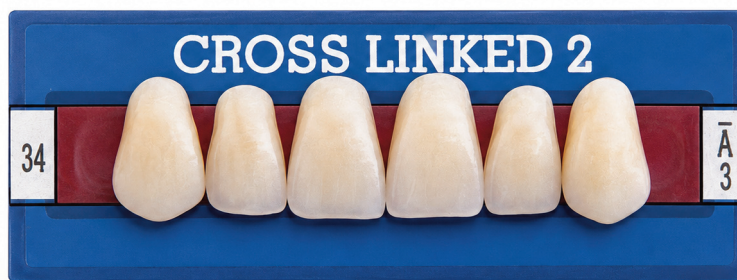

# Sets the standard for budget friendly teeth in the UK

## PoliDent

### Exclusive

Only available from Metrodent

Polident Cross Linked 2 two-layer acrylic teeth offer outstanding quality and performance. Choose from 18 upper anterior, 7 lower anterior and 6 posterior sets in 17 VITA shades. Mould and shade guides available on request.

*"Cross Linked 2 teeth are a game-changer at the bench. Outstanding, natural aesthetics that make setting up and polishing a breeze. Exceptional quality that saves time and looks stunning"*

Tom - Boulton Dental Lab

FREE Formlabs Resin Tray & Mixer worth £120

### TriniQ® Resin

Ceramic filled biocompatible resin

A strong and versatile material with natural aesthetics for creating printed teeth for temporary and permanent restorations and bridges, as well as digital dentures. Validated printer platforms include Asiga, Formlabs, Ivoclar, Phrozen, Rapidshape, Sprinray, Shining 3D and many more.

Available in VITA shades A1, A2, A3, A3.5, B1, B2, C2, D3, OM1 and OM3.

RRP £453.64

Our price £390 (Save £63.64)

### Wironit®

The classic partial denture alloy

Proven worldwide since 1953, Wironit is a reliable cobalt-chromium alloy developed for casting conventional clasp-retained partial dentures. Its reduced hardness makes frameworks easier to finish and polish, while allowing clasps to be activated easily by the dentist. Biocompatible and corrosion resistant, Wironit offers excellent rigidity, strength and dependable laboratory performance.

SKU: 50030

RRP £310

Our price £170 (Save £140)

### Wirovest®

The classic partial denture investment

Wirovest from BEGO is a classic, phosphate-bonded investment material designed for the partial denture technique. It provides high precision fit, smooth model surfaces, and excellent results specifically when paired with the gel-duplication technique.

45 x 400g (18 Kg)

# PoliDent

Only  
£56.55  
per disc

## Pink Multilayer PMMA Discs

Highly aesthetic and economical restorations

Integrated multilayer shade transition that delivers realistic depth and tonal variation directly from the disc, reducing the need for extensive manual staining and characterisation. PoliDent Pink Multilayer Discs combine natural-looking gingival aesthetics with consistent milling performance, ideal for full arch, implant supported and gingiva coloured restorations.

Size: ø 98.5 x 20, 25 and 30 mm thicknesses.  
Shades G71 (Light Pink)  
G74 (Dark Pink)

# PoliDent

From only  
£53.15  
per disc

## Multilayer PMMA Discs

Available in 18 VITA shades

PoliDent multilayer PMMA CAD/CAM discs feature five precisely blended colour layers that reproduce the natural transition from the darker cervical area to the brighter enamel shade. The result is an economical restoration with natural looking aesthetics and enhanced translucency.

The smooth, virtually unnoticeable shade transition helps create lifelike results without additional characterisation. The material also bonds effectively to denture bases and other PMMA materials.

Suitable for milling long term temporary crowns and bridges, individual denture teeth, full arch denture teeth and tooth segments.

Shoulder ø 98.5 mm with a choice of 16, 18 and 20 mm thicknesses.

VITA Shades BL2, BL3, A1, A2, A3, A3.5, A4, B1, B2, B3, B4, C1, C2, C3, C4, D2, D3 and D4.

per disc

## Colour PMMA Discs

Ideal for CAD/CAM occlusal splints

A colourful way to personalise appliances, streamline digital workflows and differentiate your laboratory's splint offering.

Available in Clear, Berry, Blue, Green and Orange  
Size: ø 98.5 x 16, 18, 20 and 25 mm

# PoliDent

Used for milling diagnostic stents for implant planning

Only  
£46.99  
per disc

## X Ray CAD/CAM Disc

Cross linked radiopaque PMMA

PMMA milling blank used to fabricate dental diagnostic stents which allows the full 3D tooth setup to be clearly visible on CT and CBCT scans. By revealing exact prosthetic positions alongside anatomical structures, it enables accurate implant planning and surgical determination within digital 3D software.

# DOF

## Work smarter with this all in one bundle from DOF

Start your digital journey with proven DOF technology designed to deliver quality, accuracy and efficiency from day one. Capture precise digital impressions with the Edge HD scanner, produce full contour zirconia crowns, bridges and customised abutments using the compact Craft S milling unit, then complete restorations quickly and reliably with the Zirfire SF rapid sintering furnace.

With essential supporting hardware integrated into a space saving footprint, this complete digital workflow is ideal for laboratories taking their first steps into digital production. Simple to install, dependable in daily use and capable of supporting same day restorations, it gives your laboratory everything needed to bring high quality zirconia production in house.

**Delivery Scope:** Installation of Edge HD scanner, Craft S Milling Unit (inc. Hyperdent or Millbox software) and Zirfire SF sintering furnace.

SKU: DOF/B1

# Carbon<sup>®</sup>

## Give your lab a new lease of life

Transform your laboratory with the Carbon M2 printer and take control of your digital production. Get up and running quickly, then stay productive with regular software updates and expert technical support to maximise performance and uptime. With access to over 30 validated third-party dental resins, Carbon gives you the flexibility to increase production, expand your capabilities and grow with confidence.

### Monthly subscription

**Carbon M2 printer package (36 month contract)**

**£1,250 per month**

\*4 x DPR10 resin each month

### Annual subscription

**Carbon M2 printer package (3 year contract)**

**£14,285 per year**

\*48 x DPR10 resin, fixed delivery schedule

**Delivery scope:** Installation and training of Carbon M2 printer, pour stand and orbital shaker.

\*DPR10 model resin 3.2 Litre bottles (RRP £330)

Carbon contract is available for new Carbon customers only. Limited to one Carbon M2 printer per lab. Carbon M2 stand alone options available from £11,500. Contact Metrodent for details.

*"What sets the Carbon M2 apart is how little it asks of us. Over 30,000 prints in, and failures are practically non-existent, automation and consistency our team can build a schedule around. It's not just fast, it's dependable at a level I haven't seen elsewhere in the lab. Genuinely the most reliable piece of kit we run."*

*Ashley Byrne, Managing Director, Corus Bymes Dental Lab*

*There's a reason why Carbon is the #1 production solution for high volume labs: unmatched uptime, consistently high print accuracy, and best in class support & satisfaction. Carbon is a partner that's with you every day for radically better results.*

Terms & Conditions\* Offer valid for new Carbon customers in the UK which are UK-registered dental laboratories, not previously Carbon subscribers. Orders must be placed by 31 October 2026. The M2 Printer package is a single 3-year subscription priced at £14,285 per year (pay £14,285 annually, or £1,250 in monthly instalments). Eligible DPR10 resin purchased in each year is credited against that price; any balance below £14,285 is payable at year-end. The package includes one M2 Printer, installation, a Pour Stand and an Orbital Shaker. A UV Curing Unit is not included (available separately through third party). Limited to one printer per new customer. Prices exclude VAT.

Freight/carriage for Printer package is charged separately, capped at £1,250. VAT, taxes, duties and shipping are not credited toward the £14,285. Carbon's standard subscription terms apply (excluding RMA entitlements); a binding Order Form with Carbon is required. No cash value; not exchangeable for a discount or credit; not combinable with other offers. Carbon may verify eligibility and creditworthiness and may modify or end this promotion at any time. Void where prohibited. Skillbond is a Carbon marketing/referral partner and may receive compensation if you enter into an agreement with Carbon. Carbon, not Skillbond, contracts directly with customers. Valid until 31/10/2026. Subject to availability. E & OE.

Metrodent is now part of the Argen UK group, joining Skillbond and Myerson to create one of the UK's most exciting and comprehensive dental groups.

Together, we bring decades of experience, trusted brands and specialist expertise, offering dental professionals an even wider choice of high quality products, materials and solutions, all supported by a team committed to exceptional service.

Terms and conditions apply. Errors and omissions excepted (E&OE). Prices, availability, specifications are subject to change without notice. All prices exclude VAT and shipping. All offers and promotions contained in this Sales Leaflet end 31/12/26
